

Mjach Designs .com

Mjach Designs was founded in 2003 by Melissa Lentz. The business was started simply with a dream, a computer and a lot of support from mentors and friends.

Today, Mjach is a full-service marketing firm, certified Minority, Disadvantaged, and Women's Business Enterprise (MBE/DBE/WBE). We are committed to delivering superior customer service, marketing support and communication services based on our extensive industry knowledge. We act as a trusted extension of our clients, producing results that directly and positively impact their business objectives. Mjach Designs' culture and philosophy is "*people first.*" We believe in clarity of thought, honesty of expression and always take a proactive approach.

We care deeply about building community and giving back and have worked several years with many organizations, offering and delivering pro-bono services, donations, and mentoring aspiring students.

Today, as our industry has changed greatly, so has our business focus, capabilities and expertise. Mjach is a leader in marketing strategy and customer service in North America. Our projects are centered around holistic approaches to brand and communication. We work with our clients to research, analyze, identify and plan their communication strategies. We understand that we need to identify areas of focus for our clients to achieve and maintain a competitive edge. We love what we do and *that* is what keeps our brand alive!

Melissa Lentz, Principal
